Technical Data Sheet

Product Name	Neopentyl glycol
Synonyms	NPG
CAS No	126-30-7
Molecular Structure	
Specification	Appearance: White Flaky Crystal 70% Coloring Matter: 30max Hydroxy Component,%: 31.6min Melting-pointRange, °C: 123~130 Free Acid(as Acetic Acid): 0.05max Moisture Content,%: 1.0max Purity,%: 99.5min
Application	Neopentyl glycol has a wide range of functions, among which the main role is to produce oil free alkyd resin, unsaturated polyester resin, flexible soft foam of polyurethane, insulated materials, printing inks, synthetic plasticizers, aircraft lubricant agent and the like.
Hazard Class	Non-dangerous goods
Packing	In 25kg Net Bag
