Technical Data Sheet

Product Name	Ferro Phosphorus				
Model Number	FEP16 FEP18 FEP21 FEP24				
Shape	Lumps				
Specification	P% MIN	Si%	C%	S%	Mn%
	23-25	3.0	1.0	0.5	2.0
	20-23	3.0	1.0	0.5	2.0
	17-20	3.0	1.0	0.5	2.5
	15-17	3.0	1.0	0.5	2.5
Application	Ferro Phosphorus is for phosphate rock and iron ore into the blast furnace refining. Mainly used for special steel alloy metallurgy industry agents and deoxidation agent, chemical products for the production of phosphate products, the production of metallic paint is also used as filler.				
Size	10-50mm or 10-100mm				
Packing	In 1mt net bags or as buyer require				
Delivery detail	Within 20 days after the receipt of L/C or advance payment
