KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product name: DITHIOPHOSPHATE 25

Molecular formula: $(\text{CH}_3\text{C}_6\text{H}_4\text{O})_2\text{PSSH}$

Main content: Dicresyl dithiophosphoric acid

Specifications:

Item	Specification
Appearance	Vandyck brown oily liquid
Density (d_4^{20})	1.17-1.20
Mineral substances %	60-70

Application: Used as the effective collector of lead, copper, silver sulfide minerals and activate the zinc sulfide ore, commonly used in the flotation separation operations of lead and zinc , as well as foaming.

Packaging: Plastic drum & iron drum, net weight 200kg / dr.

Storage: Store in a cool, dry, ventilated warehouse.

Note: According to the customers' specifications and packaging requirements.
