KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product name: DITHIOPHOSPHATE 25S

Molecular formula: $(\text{CH}_3\text{C}_6\text{H}_4\text{O})_2\text{PSSNa}$

Main content: Sodium dicresyl dithiophosphate

Specifications:

Item	Specification
Appearance	Deep brown to black liquid
pH	10-13
Mineral substances %	49-53

Application: Used as the flotation collector for copper, lead sulfide minerals and gold, silver and other precious metal minerals, commonly used in the priority flotation separation of copper, lead and zinc sulfide ore .

Packaging: Plastic drum & iron drum, net weight 200kg / drum.

Storage: Store in a cool, dry, ventilated warehouse.

Note: According to the customers' specifications and packaging requirements.
