

Technical Data Sheet

Product Name	BETA-SITOSTEROL	
Synonyms	B-SITOSTEROL;BETA-SITOSTEROL;A-PHYTOSTEROL;CINCHOL; 24-ALPHA-ETHYLCHOLESTEROL;24BETA-ETHYLCHOLESTEROL	
CAS No	83-46-5	
Molecular Structure	С29Н500 но с29Н500	
Specification	ITEM	STANDARDS
	APPEARANCE	WHITE POWDER
	BETA-SITOSTEROL	≥40%; 50%; 70%; 80%; 90%;95%; 98% ;99%
	BRASSICASTEROL	≤5.0%
	TOTAL PHYTOSTEROL	≥90.0%;;95%; 98% ;99%
	LOSS ON DRYING	≤3.0%
	HEAVY METALS	≤10PPM
Application	 Plant sterols can be widely used in medical area for the prevention and treatment of coronary heart diseaseatherosclerosisulcer etc. It can also be used as W/O type emulsifying agent for the production of skin-care cream. As antioxidant in food and feed additives As aliments and moisturizer for skin in cosmetics As raw material of steroidal medicine and vitamin D3 Reducing cholesterol, anti-inflammation, anti-ulcer, and anti-canner in clinical, and also used as a hair care nutrient and a skin care nutrient for cosmetics, in addition used as new type animal feed due to its attributes of benefit-growth, promote-healthy and raise-output. 	
Packing	N.W.25kgs drum
