KEMIACHEM CO., LIMITED.

Technical Data Sheet

Product Name	D-Calcium Pantothenate(VB5)	
Synonyms	Calcium pantothenate; Calcium (+)-pantothenate	
CAS No	137-08-6	
Molecular Structure		
Specification	Appearance: white crystalline powder Melting point: 190° C Alpha: 26.5° (c=5, in water) Water Solubility: soluble	
Application	D-Calcium Pantothenate is usually used as feed additive, food additive. It also can build and regeneration body tissue, to help close wound, make antibodies, resist infections, relieve nauseous.	
Hazard Class	Non-dangerous goods	
Packing	25kgs/drum	
Quantity /20'FCL
